- Data Structures and Algorithms

Languages

English	Fluent
Hindi	Fluent

Video Tube like YouTube using nodeJS and reactJS

Built a YouTube-like video streaming platform with a Node.js back-end and used reactJS as a front-end. Implemented key features including video upload, playback, user authentication, and real-time comments. Integrated Restful APIs for seamless content management and optimized the UI for responsive, user-friendly navigation.

E-commerce website using reactJS

Developed a dynamic and responsive e-commerce platform using React.js, enabling seamless product browsing, filtering, and secure payment integration. Implemented user authentication, shopping cart management, and real-time order tracking. Collaborated with back-end APIs to ensure a smooth user experience and optimized performance.

Portfolio using reactJS

Designed and developed a responsive portfolio website using React.js, showcasing personal projects, skills, and experience. Implemented smooth navigation, dynamic content rendering, and optimized performance for cross-device compatibility. Integrated modern UI/UX practices to create an engaging user experience.
